

ERIKS PRESS RELEASE

From ERIKS nv Management Board
Telephone +31 (0)72 54 75 888
Date 26 June 2015
Subject ERIKS AWARDED ENTERPRISE FRAMEWORK AGREEMENT BY SHELL

ERIKS announced that it has been awarded a five-year contract with Shell Global Solutions International B.V to be the primary gasket supplier for all USA refineries and offshore installations, along with the company's upstream and downstream operations throughout Europe.

The leading industrial services supplier will begin roll-out and implementation of the program immediately with full compliance expected by Q3 2015. The contract has the potential to extend further at the end of this term. The gaskets will be supplied by Leader Gasket Technology, a recently acquired member of the ERIKS Group. The contract will be managed via the worldwide ERIKS distribution network.

Marc Beckers, CEO of the ERIKS Group said; "We are delighted to have won this tender. This contract win is an example of the ERIKS Group's manufacturing, product application and distribution expertise, working together to make a winning combination that is capable of providing the highest quality of products and offering the highest standards of aftersales and maintenance support."

He continued: "ERIKS has a strong track record of working in the oil and gas sector, specifying a wide range of sealing products and supporting them in the field. This contract win is testament to the hard work of the entire ERIKS Group and we look forward to beginning our work with one of the leading companies in the petrochemicals sector."

Other services offered through the flow technology team include repair and maintenance, asset inventory and management, as well as Kanban systems for continuous stock replacement.

About ERIKS

Founded in 1940, ERIKS is a leading international industrial service provider offering a wide range of mechanical engineering components and related technical and logistics services. ERIKS' current product range is divided into five core activities: flow technology, sealing and rubber technology, industrial plastics, power transmission and bearings, and tools, maintenance and safety products. ERIKS currently consists of more than 60 companies with 450 branches in 27 countries, serving over 200,000 customers in the MRO, OEM, and project distribution business. In 2014, ERIKS generated net sales of approx. €2.0 billion (\$2.7 billion) with approx. 8,000 employees. ERIKS is a wholly owned subsidiary of SHV Holdings N.V., a family-owned multinational with net sales of €14.9 billion (\$19.7 billion) in 2014.
